

MEDICO-CHIRURGICAL TRANSACTIONS,

PUBLISHED BY THE
MEDICAL AND CHIRURGICAL SOCIETY

VOLUME THE FIFTH.

Second Edition.

LONDON:
PRINTED FOR LONGMAN, HURST, REES, ORME AND BROWN,
PATERNOSTER-ROW.

1819.

G. WOODFALL, PRINTER, ANGEL COURT, SKINNER STREET, LONDON.

ADVERTISEMENT.

THE President and Council of the Medical and Chirurgical Society, in laying before the Public a fifth Volume of the Medico-Chirurgical Transactions, have the satisfaction of finding, that the expectations which they ventured to hold out relative to an annual publication from the Society, have hitherto been realized. The communications for the present year have been ample and interesting: the correspondence of the Society has increased in extent and importance, and one of the great departments of the state has, with a degree of liberality and public spirit, which the President and Council have great pleasure in acknowledging, imparted to the Society, for the pur-

pose of publication, various important documents relative to diseases in the Army. The two first Volumes have undergone a second edition, and the two others have already had a very extensive sale. The Society, therefore, feel confident, that as long as they shall continue to be actuated by genuine zeal for the advancement of professional science, so long will they continue to experience a corresponding co-operation and support from their contributors and readers.

With regard to the other objects of the Society, the President and Council have also the satisfaction of apprizing the Members, and the Profession at large, that in the last twelve months, there has been a numerous and respectable accession to their list of members; and that the prosperous state of their funds, and the facility of intercourse with the Continent in consequence of the Peace, have enabled them to make a large addition of useful and interesting works to their Library.

Communications are, as usual, received by the President or Secretaries ; or may be transmitted through any other Member of the Society.

Medical and Chirurgical Society's House,
3, Lincoln's Inn Fields.

October 12, 1814.

OFFICERS AND COUNCIL
OF THE
MEDICAL AND CHIRURGICAL SOCIETY
